Stage 2: Account Setup and KYC Verification Access the

Setup Section:

After completing the first stage, go to the “Setup” section on the platform.

Complete KYC Verification:

Select “KYC” (Know Your Customer).

Upload a valid proof of identity, such as your driver’s licence or passport.

Verify Your Email:

The system will prompt you to send another verification code to your email.

Check your inbox, retrieve the code, and enter it on the platform when requested.

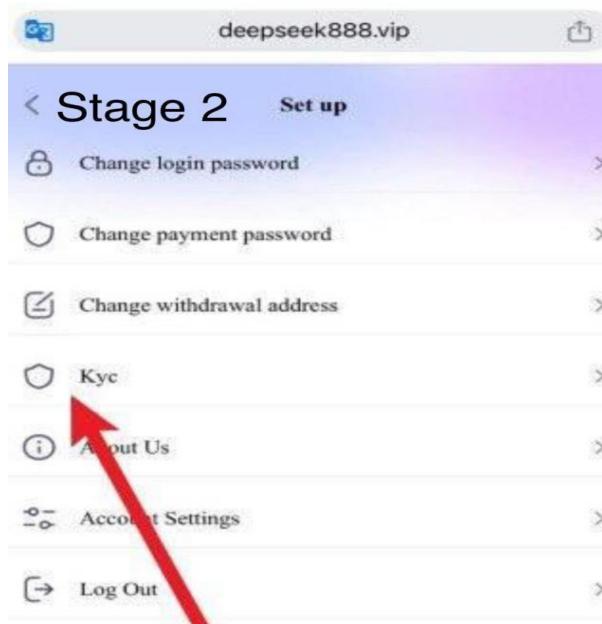

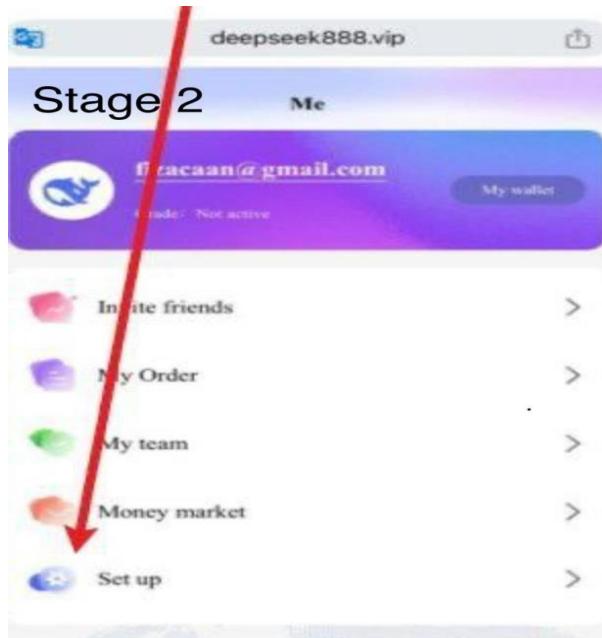

Add ID Details:

Input your ID Number displayed on either your passport/driving Licence/ID card

Submit Your Information:

Review all entered details for accuracy.

Click “Submit” to complete Stage 2 of your registration process.

Stage 3: Set Up Payment Password

Access Payment Password Settings:

Go back to the "Setup" section.

Select "Payment Password."

Create Your Payment Password:

Enter a 6-digit numeric password.

Important: Keep this password safe — it will be required to sell your computing power and withdraw your funds.

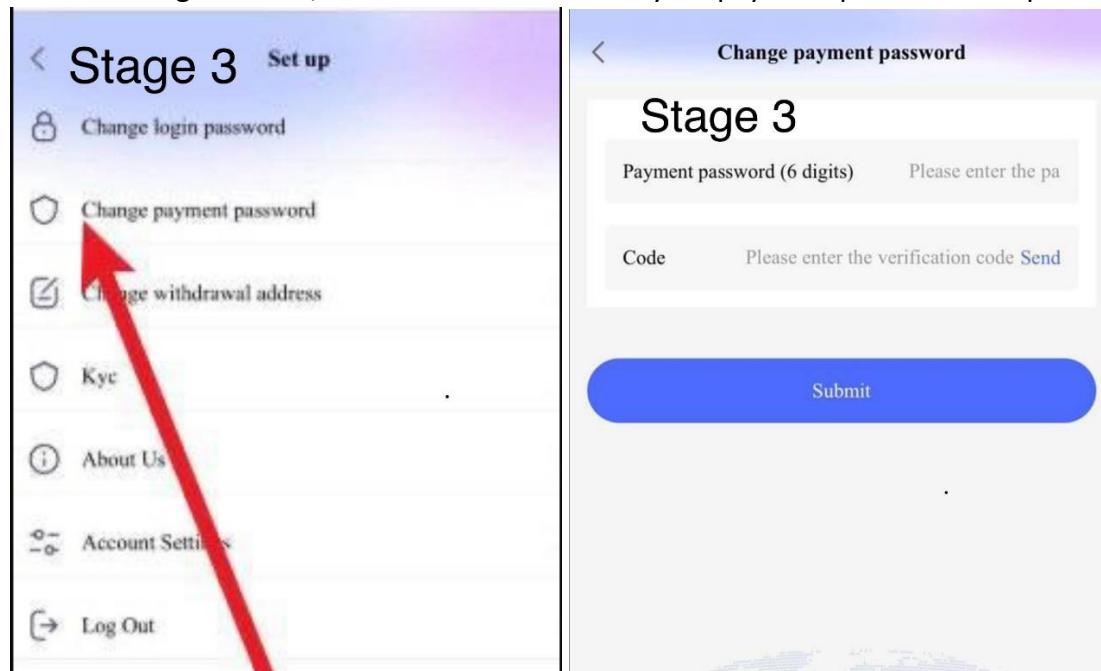

Verify Your Email:

Click the button to send a verification code to your registered email address.

Retrieve the code from your email and enter it in the required field.

Complete the Setup:

After entering the code, click “Submit” to finalize your payment password setup.

Stage 4: Set Up Withdrawal Address

Access Withdrawal Settings:

Go back to the “Setup” section.

Select “Withdrawal Address.”

Enter Your Wallet Address:

Paste your wallet address in the address field.

Important: The wallet must be an ETH (ERC20) address.

Verify Your Email:

Click the button to send a verification code to your registered email.

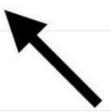

Retrieve the code from your inbox and enter it on the platform.

Submit Details:

Review your wallet address to ensure it's correct.

Click “Submit” to complete your withdrawal setup.
